

## Setup 1 - With Doorbell Chime (VAC)

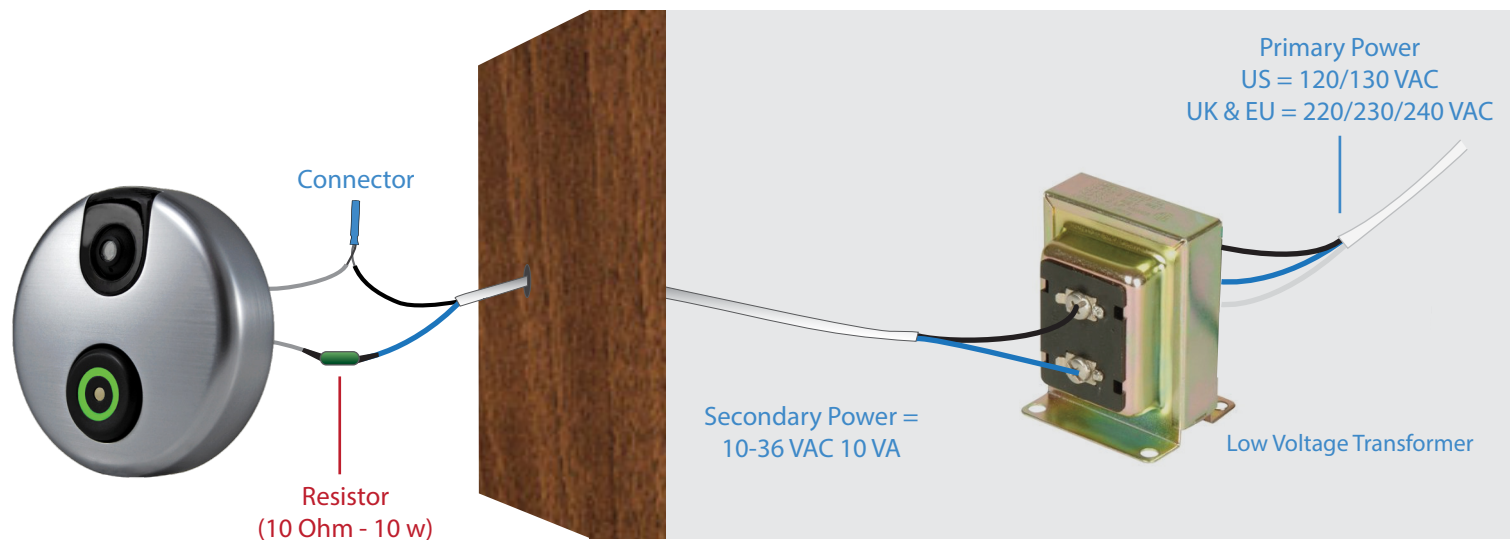

*\*SkyBell is only compatible with wired, mechanical doorbell chimes*

*\*Use class II line 120 60Hz transformer (USA)*

*\*Do not use a resistor if you are using a doorbell chime*

## Setup 2 - No Doorbell Chime (VAC)

***\*This setup requires a 10 Ohm / 10 watt resistor***

*\*Use class II line 120 60Hz transformer (USA)*
